

## DAIRY PRODUCTS PACKAGING – A GLOBAL MARKET OVERVIEW

### Summary

To satisfy the need of today's "on the go" consumer, the dairy industry has risen to the occasion by developing a range of novel products that are in line with this trend. A crucial aspect of this has been due to initiatives from packaging companies. Demands of consumers today are never ending, with society evolution leading to change in preferences, which means that products have to constantly be innovated and able to meet a range of expectations. The challenge for dairy manufacturers is in creating products that can fulfill the need for health, convenience and the environment, all at one time. Several years back, one-a-day shot formats revolutionized the dairy industry and have maintained their popularity since then. On the other hand, in the field of product and packaging innovations, developments have left a lot to be desired and this offers dairy manufacturers an exciting opportunity.

Dairy Packaging Types analyzed in this study include Bags & Wraps, Bottles, Cans, Cartons & Boxes, Pouches, Tubs & Cups and Other. The global market for Dairy Products Packaging is projected to reach US\$22.5 billion by 2015, registering a Compounded Annual Growth Rate (CAGR) of 3% during the period 2007-2015.

The market research report reviews, analyses and projects the Dairy Products Packaging market for global and the regional markets including the United States, Canada, Japan, Europe, Asia-Pacific, Latin America and Rest of World. The regional markets further analyzed for 12 independent countries across Europe – France, Germany, Italy, Russia, Spain, the United Kingdom and Rest of Europe; Asia-Pacific – Australia, China, India and Rest of Asia-Pacific; Latin America – Argentina, Brazil, Mexico and Rest of Latin America.

This 212 page global market report includes 119 rich data tables, supported with meaningful and easy to understand graphical presentation, of market numbers.
