

# Vacuum Insulation Panels (VIPs) – A Global Market Overview

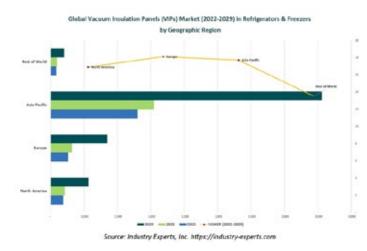

"The report reviews, analyzes and projects the global market for Vacuum Insulation Panels (VIPs) for the period 2019-2029. The market for the material types of VIP products analyzed in this study comprise Core Materials – Fumed Silica, Fiberglass and Others; and Envelope Materials – Aluminum Foils and Metalized Laminates. The report also explores global VIPs market by application consisting of Refrigerators & Freezers, Cold Chain Logistics, Building & Construction and Others."

Published: October 2023 Report Code: MG023 Pages: 259 Charts: 187 Price: \$4500 Single User License, \$7200 Enterprise License

### **Report Synopsis**

Key market trends driving demand for VIPs include stringent energy efficiency standards for appliances and buildings, demand for ever more complex and often temperature-sensitive biotech medications. The market development of VIPs has been largely impacted by the evolution in regulations set for energy efficiency in buildings, refrigerators, hot water storage systems and automobiles.

Refrigeration manufacturers are increasingly employing VIPs for achieving optimum energy efficiency. Cold chain logistics for pharmaceutical products is also under intense regulatory scrutiny, which has increased the need for reliable and high-performance thermal packaging, which has boosted the market for VIPs. Refrigerators & freezers industry is the largest consumer of Vacuum Insulation Panels (VIPs) globally, estimated at 43.7 million square meters, valued at US\$992 million in 2023, and is further projected to record a robust CAGR of 17.2% during 2023-2029 period in reaching 113 million square meters valued at US\$2.1 billion by 2029.t

### **Research Findings & Coverage**

Page 1

- Global market for Vacuum Insulation Panels (VIPs) is analyzed in this report with respect to product types and applications across major geographic regions and key countries
- Global market share analysis for VIPs is provided based on the segmentation mentioned above; and current market size estimations and revenue projections given for the analysis period through 2029

- The study discusses major growth trends, R&D, technology updates, statutory regulations and emerging applications of VIPs that influence the market growth
- Key business trends focusing on product innovations/developments, capacity expansions, M&As, JVs and other recent industry developments by the major players
- The report includes 187 charts/data tables covering market numbers by segment and regions with graphical representation for each table
- Brief business profiles of major companies covered 26
- The industry guide includes the contact details for 71 companies

### **Product Outline**

The market for product types/sub-types of Vacuum Insulation Panels (VIPs) analyzed in this report includes:

- By Core Material
  - Fumed Silica VIPs
  - Fiberglass VIPs
  - Other Core Material based VIPs (Aerogel and PU foam)
- By Envelope Material
  - Aluminum Foils based VIPs
  - Metalized Laminates based VIPs

Global market for applications of Vacuum Insulation Panels (VIPs) explored in this study includes:

- Refrigerators & Freezers
- Cold Chain Logistics
- Building & Construction
- Other Applications (such as marine, automotive, aerospace, hot water storage, industrial & technical insulation etc.)

### **Analysis Period, Units and Growth Rates**

• The report reviews, analyzes and projects the global Vacuum Insulation Panels (VIPs) market for the period 2019-2029 in terms of market value in US\$ and the compound annual growth rates (CAGRs) projected from 2022 through 2029

#### **Geographic Coverage**

- North America (The United States and Mexico)
- Europe (Austria, France, Germany, Italy, Switzerland, The United Kingdom and Rest of Europe)
- Asia-Pacific (China, Japan, South Korea and Rest of Asia-Pacific)
- Rest of World (Turkey, Russia, Brazil and Other ROW)

# SAMPLE COMPANY PROFILE

Redefines Business Acumen

## ETEX BUILDING PERFORMANCE NV (PROMAT)

Bormstraat 24, 2830 Tisselt, Belgium Phone: +32 2 778 12 11 Email: construction@promat.com Website: www.promat.com

#### **Business Overview**

Etex Building Performance NV (previously known as Promat International NV) is engaged in the production and supply of fire protection and high-performance insulation products for use in building & construction and industrial markets. Etex Building Performance NV offers its these products under the Promat brand. Promat fire protection products are used for the construction of airducts, the encasement of structural steel profiles, walls, ceilings, and the protection of electricity cables among others. Promat also offers a wide range of associated products like fire-resistant glass, firestopping products, special fire protection mortar, pipe collars for combustible (PVC) pipes, and fire rated mastics. Promat's high performance insulation product range consists of microporous products such as rigid panels, flexible panels, board products, machined parts, moldable products, feeder bowl kits, pourable products, and vacuum insulated panels; calcium silicates; high temperature wool; high temperature glass wool; composite insulation boards; textile products such as cords, cloths, tapes, ropes, and sleeving; and special products and accessories.

Promat International acquired the Belgium based high performance insulation manufacturer Microtherm Engineered Solutions NV in 2010, bringing Vacuum Insulation Panels (VIPs) and other microporous insulation product portfolio to the group. Established in 1970, Microtherm has been manufacturing high-performance thermal insulation materials based on microporous silica. Microtherm is headquartered in Sint-Niklaas, Belgium, consists of the centre of expertise and the main production facility. Microtherm also has manufacturing facilities in Japan and in the United States. Promat International NV is part of Etex Group, headquartered in Belgium. Founded in 1905, Etex is specialized in manufacturing and marketing building materials and operates 113 production sites in 42 countries and employs more than 14,000 people across the globe.

#### **Product Portfolio**

Promat markets its vacuum insulation panels under the brand name ULTIMA® VIP. ULTIMA® VIPs employ blend of filament reinforced fumed silica and an opacifier as core materials, and an ultra-low permeation barrier film that comprises multiple metalized polymer layers as an outer envelope. The Company supplies its VIP products for use in buildings, refrigerators and freezers, temperaturecontrolled packaging and refrigerated transport applications.

#### PART A: GLOBAL MARKET PERSPECTIVE......1

Redefines Business Acumen

1. INTRODUCTION1
Global Vacuum Insulation Panels Market by
Geographic Region
Global Vacuum Insulation Panels Market by Application 3
Refrigerators & Freezers
Cold Chain Logistics
Building & Construction
Other Applications
1.1 Product Outline9
1.1.1 Vacuum Insulation Panels (VIPs)9
1.1.1.1 History of Vacuum Insulated Panels9
1.1.1.2 VIPs Against Other Insulation Materials 10
1.1.1.3 Components and Materials Used in Vacuum
Insulation Panels
1.1.1.3.1 Core Materials
1.1.1.3.1.1 Fumed Silica
1.1.1.3.1.2 Fiberglass
1.1.1.3.1.3 Foams
1.1.1.3.1.4 Aerogels 15
1.1.1.3.1.5 Other Core Materials15
1.1.1.3.1.5.1 Fiber-Powder Composites
1.1.1.3.1.5.2 Expanded Perlite
1.1.1.3.1.5.3 Honeycomb Glass Fiber Mat
1.1.1.3.2 Envelopes
1.1.1.3.2.1 Structure of VIP Envelope
1.1.1.3.2.1.1 Protective Layer
1.1.1.3.2.1.2 Barrier Layer 19
1.1.1.3.2.1.3 Sealing Layer 19
1.1.1.3.3 Getters and Desiccants 20
1.1.1.3.4 Opacifiers
1.1.1.3.5 Sensors
1.1.1.4 Manufacturing Process of VIPs
1.1.1.4.1 Preparation of Core Material
1.1.1.4.2 Preparation of Envelope
1.1.1.4.3 Insertion of the Core and Vacuum Sealing 22
1.1.1.5 Working Mechanism of VIPs 22
1.1.2 Applications of VIPs23
1.1.2.1 Appliances23
1.1.2.2 Building & Construction 24
1.1.2.3 Cold Chain Logistics
1.1.2.4 Transport Refrigeration
1.1.2.5 Other Applications
1.1.3 Vacuum Insulation Panels Standards
1.1.3.1 International Level
1.1.3.2 Europe
1.1.3.3 China
1.1.3.4 ASTM International 28
2. KEY MARKET TRENDS
2.1 Higher Energy Efficiency Standards for Appliances
to Drive Demand for VIPs
2.2 Thermal Packaging Systems for Healthcare and
Food Logistics Continue to Push Demand for VIPs 32
2.3 Demand for Vacuum Insulation Panels in Building
2.5 Demand for vacuum insulation i anels in building

### **About Industry Experts**

Industry=xperts

Redefines Business Acumen

Industry Experts' market research, backed by years of experience and an analytical team dedicated to providing the most optimal business solutions, has been specifically designed to provide a variety of benefits, both current and future. Our leading-edge publications make the life easy for corporate strategists, investors, analysts and researchers, startups, consultants, financial and banking executives, academicians and many more. The company also provides customized research reports to cater the needs of the industry.

Business intelligence provides the critical link between comprehending prevailing market conditions and devising strategies to maximize parameters, such as revenues, profits and return on investment in order to gain market share. The significance of market research can be largely understood through the range of factors that impact businesses. These can comprise market size (current and projected), geographic market reach and demand and supply scenario, to name a few. Our ongoing quest to collect up to date and accurate information by conducting online surveys, personal interviews, taking the opinions of senior level executives will enable us to serve our clients better in every possible aspect.
