Report Synopsis

The COVID-19 pandemic has impacted the entire value chain of the probiotics industry mainly due to strict lockdown in several regions. However, the use of probiotics is increasing in this COVID-19 pandemic times mainly because the coronavirus directly affects the human’s immune system and the use of probiotics has positive effects on the immune responses. Amid COVID-19, the demand for the global probiotics market is projected to increase by 7.5% Y-o-Y in 2020 to reach US$48.7 billion from an estimated at US$45.3 billion in 2019. Based on the application, demand for Probiotics in Dietary Supplements is expected to increase by 12.8% Y-o-Y in 2020 to reach US$8.2 billion due to the increasing demand during the COVID-19 pandemic.

The report reviews, analyses and projects the Probiotics market for global and the regional markets including North America, Europe, Asia-Pacific and Rest of World for the period 2017-2026 in terms of market value in USD. Asia-Pacific is the dominant market in the global Probiotics market with a lions-share of 43% in 2019 and is projected to register the fastest CAGR of about 9% to reach US$35.8 billion by 2026.

Research Findings & Coverage

- Probiotics global report analyzes the market with respect to product segments and application segments
- Global market size is estimated/projected in this report by product segment and application segment across all major countries
- Role of Probiotics amid the COVID-19 Pandemic
- New Names for Significant Lactobacillus Probiotics
- Food Scientists Upcycle Unsold Bread into Gut-Friendly Probiotic Beverage
- Dead Probiotic May Be Effective Against Aging-Related Inflammation
- Key business trends focusing on product innovations/developments, M&As, JVs and other recent industry developments
- Major companies profiled – 25
- The industry guide includes the contact details for 144 companies

Product Outline

The market for product segments of Probiotics studied in this report comprise the following:
- Bacteria
- Yeast

The report analyzes the market for the following application segments of Probiotics:
- Food & Beverages
- Dietary Supplements
- Animal Feed

Analysis Period, Units and Growth Rates

- The report reviews, analyzes and projects the global Probiotics market for the period 2017-2026 in terms of value in USS; and the compound annual growth rates (CAGRs) projected from 2019 through to 2026 with a special focus on y-o-y growth for 2019 and 2020.

Geographic Coverage

- North America (The United States, Canada and Mexico)
- Europe (France, Germany, Italy, Russia, Spain, United Kingdom and Rest of Europe)
- Asia-Pacific (Australia, China, India, Japan, South Korea and Rest of Asia-Pacific)
- South America (Argentina, Brazil and Rest of South America)
- Rest of World

About Industry Experts

Industry Experts’ market research, backed by years of experience and an analytical team dedicated to providing the most optimal business solutions, has been specifically designed to provide a variety of benefits, both current and future. Our leading-edge publications make the life easy for corporate strategists, investors, analysts and researchers, startups, consultants, financial and banking executives, academicians and many more. The company also provides customized research reports to cater the needs of the industry.

Business intelligence provides the critical link between comprehending prevailing market conditions and devising strategies to maximize parameters, such as revenues, profits and return on investment in order to gain market share. The significance of market research can be largely understood through the range of factors that impact businesses. These can comprise market size (current and projected), geographic market reach and demand and supply scenario, to name a few. Our ongoing quest to collect up to date and accurate information by conducting online surveys, personal interviews, taking the opinions of senior level executives will enable us to serve our clients better in every possible aspect.
